### Welcome to Riverview Dental

Thank you for choosing our professional dental team to provide you with your dental care needs. On behalf of our entire team, we would like to welcome you! We look forward to providing you with exceptional dental care for years to come. Please read the information below.

#### **Riverview Payment Policy**

Insurance is filed as a courtesy to our patients. However, the amount we estimate your insurance not to cover is due on the day of service. We will prepare a treatment plan, to the best of our knowledge, with the estimated amount due from your insurance provider. It is advisable for the insured to routinely verify changing coverage AND remaining benefits from their insurance provider.

Our estimates are based solely on fees charged by our office. The estimate does not include any benefits paid by other dental providers. It is the responsibility of the insured to know the limitation and frequency of the insurance policy. We accept cash, check, and major credit cards in addition to offering a payment option through Care Credit, for qualified applicants.

#### **Fluoride and Sealants**

It is our policy to treat children with fluoride at every six-month checkup appointment, as well as place sealants on the permanent 1<sup>st</sup> and 2<sup>nd</sup> molars as they erupt. These procedures help prevent tooth decay and are recommended by the American Dental Association. Most insurance companies cover these services; however, please check with your insurance provider to know their frequency and age limitations.
